

Standard SRAM BB30/PF30 cranks come in 2 different spindle lengths, which require different chainrings for optimal chainline
 Please find your crank in the chart below and find the correct B-Labs direct mount chainring version for your SRAM crank

SRAM 24 mm spindle - GXP or PF GXP Bottom Bracket		
If you have this crankset and chainring combination		Replace the spider and chainring with the following Oval chainring
XX1	Any chainring size	GXP direct mount version
X01		
X0		
X9		
X1	Any chainring size <i>Bolt-on spider cranks only</i>	

SRAM 30 mm spindle - BB30 or PF30 Bottom Bracket		
If you have this crankset and chainring combination		Replace the spider and chainring with the following Oval chainring
XX1 (168mm Q-Faktor)	Any chainring size	BB30/PF30 direct mount version
X01		
X0	44/33/22	
	42/28	
	39/26	
	38/24	GXP direct mount version
	36/22	
	34/22	
X9	44/33/22	BB30/PF30 direct mount version
	42/28	
	39/26	
	38/24	GXP direct mount version
	36/22	
	34/22	
X1	Any chainring size <i>Bolt-on spider cranks only</i>	BB30/PF30 direct mount version
